## Check IT! MnM MD FR Revo, Ion, Live and Lots of Filter!

So I did a live set a few weeks ago, and made a great friend at the end of the evening. He wanted to get together and push some waves. ^\_^

Here are the results. Mind you it was the first time that we have ever gotten together, and nither of us knew exactly what was comming.

If you listen to it please leave some input.

good jam sesh. I listened to most of it this morning - I dig the kid A samples! As soon as it came in I was like "I know that form somewhere" then it hit - are you going to put a project together with this other person?
