## Novation Remote

Posted by tobitobsen - 2005/08/18 13:25

---

Hey guys,

I would like to know, if anybody got a remote from novation in use with his MnM SFX60. Especially i would like to know, if it's possible to use the joystick in the same way as in the SFX6(after programming of course), so I mean can you use it for every of the four directions or only for 3 like a korg Triton f.e.?

Peasn,  
tt

I don't have a novation remote although i can think of a thing to find out if it's compatible...

Get the manual from the novation site, and check you can assign the joystick to cc's(so the x axis and the y axis can get an custom defined cc number(i thought it was 0 and 1 for the mono), that way i reckon it should work)

Also it's a 4 way(x and y params) thing and the mono joystick is too, so i don't see any reason why it would be 3 way.

Yo digger,  
thanx for the tip, I'll do that. Hopefully the Remote 25 LE will be a bit cheaper than the older models.

greetings
