
New science lab ?

Posted by Opuswerk - 2008/12/04 20:49

As I just got the MD, I'm eager to learn it a lot more. Science labs seem like the best way to actually delve in things i don't know and should explore more.

Any chance they are still running? or are the all a year old ?

How does one apply to them ?

Hope those still run, although i could do them just for me, doing them with a deadline in mind always helps :D

It's all explained here.

Deadline is now 20/1/09.

nice one, i will message Papertiger to ask for Odlarn and myself to be assigned a machine lab..

glad to have asked, cos we certainly ain't on the list at the moment. :)
