
Monomachine SFX60 FOR SALE Europe only

Posted by kitchen - 2005/09/22 18:40

I love this machine, but I've got the SFX-6 as well. and though having them both is just too superfluous for me right now in my new setup.

asking 900 euros with EU shipping. it's in 100% perfect condition, with the elektron warranty still on and the original box...so you know you want it for sure!

Shipping only in the EU. Bank transfert only for the payment (free inside EU)

pictures available upon request.

Will be also on EBAY next week for the same price without the shipping free ;))

Thanks

other infos leave me a message here.
