
Anyone interested in the EoWave Persephone?

Posted by jsrockit - 2005/10/19 02:07

http://www.eowave.com/page_produit?prod=5

Looks cool. Anyone know of any synths like it (or the one this was modelled after)?

The Sci-FiBug looks good as well:

Well, the way you control it seems alot nicer...and I believe you will be able to control other devices with it as well.
