Hi,

I just finished a track using MnM, Access Virus and Logic. Most of it comes from my MnM.

The Freight Elevator :-x

I would be very happy if you could write some comments :-D

Yeah!

You definitely have ears. Good arrangement & mixing. Nice use of rhythm. Excellent contrast of sounds, textures. Over all good timing, pacing. It sounds like you're a natural with sound. The last minute is a little weak, but the ending is good. Maybe edit a little more. I like your use of detuned pitches against one another. Your recording is a bit noisy.

Excellent music & mix!

Richard

Thank you very much :-D

Regarding the last minute I will think of a change. You are not the first guy who says that the end is weak ...
