I have no problem shipping to the UK! Was there a problem?

I'll ship this thing to mars if I have to!

PM me, we'll chat...

I am lowering the price on this thing one last time - to the bottom.

\$700

for a pampered, sick bass synth this is quite a deal. This thing is the shit - y'all know it... somebody take it off my hands  
you will not be disapointed!
