took me a few hours.

yeah, the UW should be here in under a month if elektron does as they suggest!

I am psyched.

very cool track man!

one of these days we should get together and do a MNM+MD vs MNM+MDUW battle ;)

or at least meet up for a beer and talk gear!

when my UW arrives, I have a feeling my social calander will be put aside even further. Shut in status may apply.

hey - does it ever get cold here?

I'm definitely down for a beer - pm me or email at mweeks (at) endmusik dot com - name a place and a time and I'll be there!

it apparently never gets cold here, but it sure does like to rain. I grew up upstate, I miss seasons!

Of course - to add insult to injury my apartment has 3 radiators, and the largest one is in my studio, so all winter long I keep a window open to level out the temperature (we can't control our thermostat :-o)
