## Hi all

---

Andreas from Denmark here, enlisting under the elektron flag.  
Looking forward to be a part of this cool forum. I've already got tons of info and files from here.  
I just bought a machinedrum and it's the best.

Got a little question:

Does Elektron send out any newsletters or the like? It would be nice to get an e-mail when a new OS-update is available....or when they release new hardware(as if)

Cheers,

Andreas

There the elektron friend newsletter... but not for OS updates (at least as far as I remember). However, if you hang out here, someone always posts the OS updates in a thread. Oh yeah, and welcome!

Hi JS,

The elektron friend newsletter - where do I sign up?
