
Sticky for elektron related software?

Posted by mos6581 - 2006/02/02 13:08

Hi!

Wouldn't it be a good idea to put a sticky thread in the other gear forum or even elektron gear forum that would contain a list of available software related to the elektrons? Primarily for promoting freeware software developed by the elektron fans and maybe other. I wouldn't wanna miss any of the killer apps out there.

/Andreas

Thank you for the suggestion!

In the new site, we will have a dedicated location for all Elektron and Elektron-related software.
