
PPG wavetables

Posted by anselmi - 2010/05/03 04:19

I was looking for the original PPG wavetables in AUDIO format

Paul Maddox sent me the original ones in some EPROMesque format that I can't open in an audio editor though some people said it could be.

Any advice? a link? the tables?

Here is what Paul sent to me

<http://www.vacoloco.net/synths/monowave/downloads/pao.zip>

hard to digest, indeed...

you can also try this thread on the Rolandclan forum, which contains a zip with 800 singlecycle waveforms, including the PPG2 waves...
