
Auto Subscribe

Posted by Dalski - 2010/09/11 23:32

Is there a setting somewhere to auto subscribe to threads that I post in?

Can't find it if there is, and I always forget to hit the subscribe button, used to auto.

Thanks

...please...anyone?

I'm pretty sure it's not an option, any chance this may get implemented?

User Menu (on your right) >> Forum Profile >> My Subscribes. Never used it so you'll have to take it from there.

Thanks for the reply but i've already looked there, no option to auto subscribe to posts I reply to though...unless i'm totally blind, which I doubt, because I saw Elvis yesterday and it was very real :)

Site feature request it is then...
